

Modern Grid Patterns

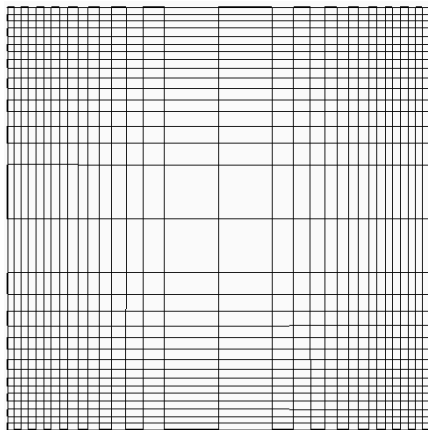

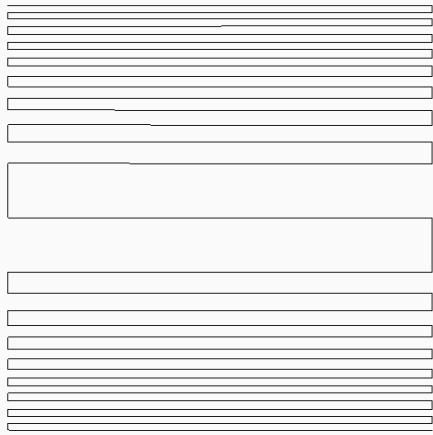

Grid, Weave, Warp

Define your sewable boundary. Select the pattern. Use Repeat Patterns to adjust the pattern width to fit the quilt. Adjust the pattern height to equal the full length of the quilt .

Place one repeat on the CAD. Divide the pattern and toggle sewn any lines below the boundary. Quilt the lines that fit.

Roll and Relocate or use Continue/End of Set. Draw a new boundary. Toggle unsewn the lines which can be quilted. Quilt and continue to the bottom of the quilt.

Rotate the quilt, or the pattern 90° and quilt again.
